MASSEY-HARRIS

The Premier Heavy Crop Binder

Almost any Binder will handle a light crop of grain; but it takes a good one to handle a heavy tangled crop.

The Massey-Harris will do this where others fail. A reel that can be adjusted to seven positions, low placed gears, great elevating capacity and ample deck room are features which give the Massey-Harris first place in handling heavy crops. You can't go wrong in buying a Massey-Harris.

Will be unloading a Car of Binder-Palm-son

Delorme Jury Disagree
Trial Cost State \$30,000

Montreal, July 24.—Ten [illegible] of Montreal, called to state whether Rev. Adolphe Delorme was guilty of having murdered his half-brother Raoul, decided after hearing evidence, addressed by counsel for the defense and the crown, and after summing up by Chief Justice Sir Francis Lemieux in the court of the bench, that he was guilty of the murder.

Two citizens, the remaining members of the jury, refused to agree with their fellows, and the disagreement being presented in the jury was discharged yesterday afternoon by his lordship. Application for bail, made by A. T. Delorme, counsel for the defense, was promptly dismissed by the bench.

It was not until it was very clear that there was no hope of agreement that his lordship reluctantly dismissed the jury. The dismissal followed the second report of disagreement reported during the day. The cost to the taxpayers of the province will be over \$50,000, the court told the jury, and charged not means that the province will be liable for a similar cost later on.

Sapiro is Coming to Alberta

The Calgary Herald and Edmonton Journal have shown editorially in bringing Aaron Sapiro, the famous co-operative marketing expert, to Alberta.

He will be in this province early in August, and will address meetings in the large centres, and will also confer with the farmers who are interested in the formation of a wheat pool.

Mr. Sapiro will attend a marketing conference at Saskatoon on August 6, and will visit the larger centres in Alberta after that date. He probably will make his first Alberta address in Edmonton about August 8.

In his wire to the Calgary Herald, Mr. Sapiro states: "Strongly believe that Canadian farmers using the proper leadership could organize practically entire wheat crop of Canada in co-operating pools for this year. Will be in Saskatoon for the purpose of inter-provincial conference proposed by the Farmers' Union of that province."

"Will go to Alberta, and speak in important centres, but would prefer to do this after the conference at Saskatoon."

Morningside

July 26, 1923.
The Board of Education met in session on above date, all members being present. T. J. Harkin was in the chair, and the following in attendance: Minutes of last meeting read and approved.

Communications.—Moved by Cooper, that Mr. Connel's resignation be accepted. Carried.

Accounts.—Mr. H. S. Wainwright, \$15.00; Mr. H. S. Wainwright, \$15.00; Mr. W. L. Johnson, \$1.00. Accounts referred to Finance Committee, and if correct, paid.

Moved by Harkin, that a substitute taking the place of a regular teacher during the coming year be paid at the rate of \$3 per day carried.

By Harkin, that the application of Miss Fredricka Halpin for the Primary grade be accepted, salary \$100 per year carried.

By Cooper, that Miss Peterson take the place of Miss A. Jean Walker in the Primary grade, salary \$100 per year carried.

By Cooper, that Miss F. F. Elliot be given second choice to sign on for the coming year, in the event of resignation not being accepted, carried.

By Harkin, that we advertise in the Calgary Herald and Edmonton Journal for one week for a principal, salary \$100 per year, with \$100 in arrears annually to maximum of \$225. Previous experience to be considered.

By Brady, that the Property Committee be authorized to investigate the school and having of all matters on August 25th carried.

That this meeting adjourn until Monday, July 27th.

The adjourned meeting was held on above date, all members being present. Accounts read and referred to Finance Committee. Resolved, that \$100 be paid to Mr. H. S. Wainwright, \$15.00; Mr. H. S. Wainwright, \$15.00; Mr. W. L. Johnson, \$1.00.

By Harkin, that Mr. McIntyre be given the position of principal at a salary of \$100 per year.

A. G. GILBERTSON, Secy.

YOSUNDA CAMP

Fine Outing at Buffalo Lake

It is not often that such good fortune as has befallen Aaron comes to rural districts in general. A genuine day-in-the-week leader of boys and girls has come to town. Generally speaking, those qualified for such work and their goal in the large centres, and if possible they come back to the farm to live, there are various reasons for this. It is a real necessity in the very sense of the word that it is being so equally directed by Mr. Harry Phillips, leader of the Aaron Sapiro C.F.A. business meeting.

Thirty odd children representing four districts—Aker, Chalmers, Wainwright and Calmar met every other Saturday in the P. E. Hall, and there find instructive recreation in the various departments of physical education, music and juvenile C.F.A. business meeting.

The week of July 24 found 17 of the children of Buffalo Lake, the picture of a fine day. Mr. Phillips, the picture of a fine day. Mr. Phillips, the picture of a fine day.

JUTTING
OF
TOWN AND
DISTRICT

Local News.

Alex. McMillan left for Calgary on Sunday.

Mr and Mrs Ruben Smith were recent visitors in Edmonton.

Mr and Mrs W. H. Mullins are enjoying in Edmonton.

Grant Paulsen attended a meeting of the Alberta Red Polled Club in Edmonton last week.

Mr and Mrs Geo. Friskin, of New Norway, were guests of Dr. and Mrs. Pollock on Sunday.

Mr and Mrs E. F. Kilsby and daughter, of Camrose, were weekend visitors with E. T. Cooper, Jackman.

Miss B. Platt, of Olive, is spending a few days with her friend, Miss Ada Russnak.

Miss Nellie DeWilde is spending her vacation with her aunt, near Spokane.

Harry Smith, who has been in somewhat indifferent health of late, has gone to Edmonton for a change and rest.

DICKENS—On Thursday, July 15th, to Mr and Mrs Ben. Dickan, a daughter (still born).

An auto spoiler was fined \$14 by the magistrate on Monday.

Miss Sara Gray, of Edmonton, who has been visiting with Mr John Wilson, Eastside, for a couple of weeks, returned home on Sunday.

A number of the C.G.T. club are in camp at Gull Lake. Of course the girls are having the time of their lives, swimming, eating and sleeping. They are being chaperoned by Mrs Hugh Miller and Miss Mae Laycock.

Mrs F. Violette, from Missoula, Mont., is making an extended visit with her daughter, Mrs L. E. Nelson. Little Miss Margaret Valantine, her grand daughter, is with her.

Among the successful local exhibitors at the Edmonton fair were Herb, Stretch with his (Percheron) horses, H. L. Sweet, Red Polled cattle, and Ralph Hamby, sheep.

A little more hail has been reported from outlying districts during the past week, but fortunately nothing very extensive. The weather remains exceptionally fine, and the crops "the best ever."

As usual, the business men have made generous contributions to the Ponoka fair prize list. The list of donations are given in this issue, and a personal will show if your name is among the generous. The prize list is now in the hands of the secretary, and intending exhibitors should get busy. The fair will be held on Wednesday and Thursday, August 15 and 16.

The many friends of Herman Schwiager, late engineer at the hospital, will be glad to learn that he is much improved in health. He had been suffering from tuberculosis for the past three years, but is now fully recovered. Unfortunately he was recently taken down with appendicitis and is at present in the General Hospital, Calgary, where he is getting along nicely.

JOSEPH B. FRANCIS, Pastor.

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers, who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It means hard work, but today they are independent.

Money in Mixed Farming
In recent years, at different points on the prairies, one led to others have brought from 75c to \$1.00 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 90c as against the Fort William price of 55c per bushel. Farmers maintaining their coarse grain in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted. The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs
The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep
As everyone who is hard to kill in every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

Poultry Pays
Poultry makes money for those who adopt modern methods. The eggs of the West, Little Prince Edward Island, are sold co-operatively in carlots, shipping, annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange makes in the same way, thus saving ruinous glut in their local markets.

Grow Seed
Canada's Northern regions are possible extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future
Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle, she wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will demand more and more goods from the British market. Eventually, she will demand the use of an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let us get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Have Faith in Canada

Authorized for publication by the Dominion Department of Agriculture
W. R. MOTHERWELL, Minister. Dr. J. H. MOTHERWELL, Deputy Minister.

Grain Inquiry Sittings For Manitoba Are Postponed Indefinitely

Winnipeg.—At the request of the Manitoba Government, the sittings of the Royal Grain Inquiry Commission in that province have been indefinitely postponed. The present schedule will remain at Regina, August 2.

The decision is the outcome of a telegram received by Mr. Justice Turgeon, Chairman of the Commission. The wire from Manitoba states that in all probability harvesting will commence in that province August 1 and with this in view it was requested that all public hearings in Manitoba be postponed until after the harvest.

It is expected that after the hearing in Vancouver which opens September 1, followed by a sitting in Medicine Hat, the members of the commission will go to Port William to examine methods of grain handling and to study the milling question. It is then proposed to hold sittings in Winnipeg, where the Grain

Exchange will be studied, and it is expected that the final report of the commission will be submitted to the Hon. Sir Henry Thornton, President of the Board of Trade, in London, before the end of the month. The commission is expected to be composed of representatives of the Dominion Government, the Manitoba Government, and the Grain Exchange. The commission will also be assisted by a number of experts in grain handling and milling.

CONTENDS THAT MIXING OF GRAIN MEANS FARMERS GET LESS RETURNS

North Battleford.—A statement that Mr. Stewart, director of the Wheat Board, had said that the mixing of grain from the North and South would result in a loss of returns to the farmer, has been widely reported. Mr. Stewart, in a recent interview, stated that the mixing of grain from different sources would result in a loss of returns to the farmer, as the grain would be sold at a lower price than if it were sold separately.

Mr. Stewart also stated that the mixing of grain from different sources would result in a loss of returns to the farmer, as the grain would be sold at a lower price than if it were sold separately. He also stated that the mixing of grain from different sources would result in a loss of returns to the farmer, as the grain would be sold at a lower price than if it were sold separately.

South African Premier Will Champion Peace

General Smuts, Minister of Defence, has been reported to be a strong champion of peace. He has been widely quoted as saying that the only way to achieve peace is by the use of force. He has also been quoted as saying that the only way to achieve peace is by the use of force.

Death of Francisco Villa

Francisco Villa, the Mexican revolutionary leader, has been reported to be dead. He was killed in a battle with the forces of the Mexican Government. His death has been widely reported in the press.

Canada Loses Population

3,525 Mechanics Went to States in May. The United States Department of Immigration statistics for May show that 3,525 mechanics went to the United States. This is a record for the month of May.

New Offices For High Commissioner

The High Commissioner for Canada in the United States has announced that he will move to his new offices in Washington, D.C. The new offices are located in the State Department building.

Australian Boy Scouts

Melbourne.—The Commonwealth Government is considering a proposal to assist in paying the expenses of the Australian Boy Scouts. The proposal is to provide a grant of £50,000 per year.

Canada And U. S. Trade Reprisals War Now Being Predicted

New York.—A "war of trade reprisals" between the United States and Canada is predicted by some writers. They claim that the United States is imposing trade restrictions on Canada, and that Canada is retaliating with similar measures.

Foot and Mouth Disease

London.—Two outbreaks of foot and mouth disease among cattle have occurred in the past few days in London. The disease is highly contagious and can be spread by direct contact with infected animals.

England Wins McKinnon Cup

Billy Camp, England, won the McKinnon Cup with a total score of 1,031. Scotland was second with 1,012. Ireland third with 1,028. Wales fourth with 945. The McKinnon Cup is a trophy awarded to the winner of a series of matches between the four nations.

HEAVY LOSS FROM STORM

DAMAGE FROM CYCLONE IN WESTERN AREA MAY EXCEED MILLION DOLLARS. Regina.—Damage of property and crop in Regina and the surrounding area is estimated to be in excess of a million dollars. The damage was caused by a severe cyclone that struck the area on Sunday night.

Group of Southern Alberta Farmers Will Cooperate in Marketing Crop. Lethbridge.—Twenty-three South of Alberta farmers, united in a group, are planning to market their wheat crop through a co-operative marketing agency. The group is called the Southern Alberta Farmers' Marketing Association.

Can Do Nothing Now About Branch Lines Says Hon. Grahame

DEMAND BRANCH LINES

THINK GOVERNMENT SHOULD AUTHORIZE EXPENDITURE FOR PROPOSED EXTENSIONS. Saskatoon.—A resolution calling upon Premier Mackenzie King to authorize the expenditure necessary for the construction of the proposed Canadian National branch lines was passed at a meeting of the Saskatchewan Association of Trade Dealers. The association is a group of merchants and business men who are interested in the development of the province.

Mr. Grahame, Minister of Railways, said that the government was unable to do anything at present about the branch lines. He said that the government was waiting for a report from the Canadian National Railway Company on the feasibility of the proposed extensions. He also said that the government was considering the possibility of authorizing the expenditure for the construction of the branch lines.

Britain Recapturing Trade

Exports to Brazil Surpass American First Time Since War. London.—British exports to Brazil have surpassed those of the United States for the first time since the war. This is a significant achievement for the British Empire, as it shows that the British are regaining their position as a major trading power.

The government is pleased with the results and is confident that the British will continue to regain their position as a major trading power. The government is also confident that the British will continue to regain their position as a major trading power.

Reviving Smuggling Along English Coast

Business of Hundred Years Ago Is Again Profitable. London.—Smuggling, once a feature of the Napoleonic wars, is reviving along the English coast. This is due to the fact that the demand for certain goods is high, and the supply is limited. Smugglers are taking advantage of this situation to make a profit.

France Has Large Crop

Will Harvest Enough Grain to Make Import Unnecessary. Paris.—For the first time in many years France will be able to make good on her promise to be self-sufficient in grain. This is due to the fact that the French have had a very good crop of grain this year.

Turks Content With Peace Treaty Terms

Not congruous to National Interests, Pasha Informed Government. Constantinople.—The Turkish government is satisfied with the terms of the peace treaty. The Pasha, who is the head of the government, has informed the government that the terms of the treaty are in accordance with the national interests of Turkey.

Canada Wheat Crop

Domestic Officials Deny Making Estimate of 500,000,000 Bushels For This Year. Ottawa.—Officials of the agricultural branch of the Dominion Bureau of Statistics have denied a report that they had made an estimate of the Canadian wheat crop for this year at 500,000,000 bushels. They said that they had not made any estimate of the crop for this year.

Would Build Wireless Station In England

Eastern Telegraph Company Has Applied for License. London.—The Eastern Telegraph Company has applied for a license to build a wireless station in England. The company is planning to build a station at a site in the south of England. The station would be used for the transmission of telegrams.

Moore Backs Lewis

Says Nova Scotia Miners Should Repeal Law to Give. Ottawa.—The Minister of the Interior, Mr. Moore, has backed the proposal of Mr. Lewis to repeal the law that gives the Nova Scotia miners the right to work on their own land. Mr. Moore said that the law was unfair to the miners and should be repealed.

Aviator Has Hard Luck

Failed Second Time to Cross Continent Between Denver and Sask. Regina.—An aviator who attempted to fly from Regina to Denver failed a second time. The aviator, who is a Canadian, was forced to land in the middle of the journey due to engine trouble. He is now in Regina, waiting for a replacement engine.

Trade Affected By World Conditions

Reason Given By British Minister For Business Decline. London.—The British Minister of Commerce has given a reason for the decline in British trade. He said that the decline was due to the fact that the world economy was in a state of depression. He also said that the British government was doing everything possible to stimulate trade.

London Has Large Supply Of Insulin

Medical Official Denies Report of "Exorbitant Prices Charged." London.—A medical official has denied a report that the price of insulin in London was exorbitant. He said that the price of insulin was reasonable and that there was a large supply of insulin in London.

Russia Cannot Foresee Crop

Moscow.—Various estimates of Russian crop prospects have been made, but the Russian government cannot foresee the crop. This is due to the fact that the Russian government does not have accurate information about the weather and the state of the crops.

Good Insurance Risks

New York.—Aeroplane (travel) by tourists in machines of aerial transportation companies will no longer be considered an insurance risk. This is due to the fact that the companies have improved their safety measures.

Indian Army Officers Will Settle In B.C.

Victoria.—The Indian Army Officers who are being transferred to the British Columbia frontier will settle in the province. The officers are being transferred to the frontier to help with the defense of the province.

Our Surplus Wheat Is Matter Of Interest To People Of Britain

London.—The question of the best use of the surplus wheat of the Dominion is a matter of interest to the people of Britain. The British government is interested in the surplus wheat because it can be used to help with the food supply of the British people.

Britain Not Obligated To Tell Navals Plans

Retained Full Freedom of Action Regarding Singapore Base. London.—The British government is not obligated to tell the Japanese its plans regarding the Singapore base. The British government has retained full freedom of action regarding the base, and it is not bound by any international agreement to disclose its plans.

Thornton and Beatty Plead for Forest Protection

President of the Canadian National Railway, Mr. Thornton, and the Minister of the Interior, Mr. Beatty, have pleaded for forest protection. They said that the forests of Canada are a valuable resource and should be protected for the benefit of future generations.

Our Surplus Wheat Is Matter Of Interest To People Of Britain

London.—The question of the best use of the surplus wheat of the Dominion is a matter of interest to the people of Britain. The British government is interested in the surplus wheat because it can be used to help with the food supply of the British people.

RICH IN VITAMINES

MAKE PERFECT BREAD

WORLD HAPPENINGS BRIEFLY TOLD

President Garfield, 75, widow of Italy's first head, is dead at Cardiff. Two hundred thousand in route from Cuba to Canada, arrived at New York recently.

Newspaper's interest in British Columbia have grown to 111, with a membership of 4,000.

An agreement was reached on the outstanding difficulties between the two nations, and nothing remains in the way of signature of peace.

Dr. M. Post Borey, a Canadian, who received his degree in medicine at the University of Toronto, is the first woman to be admitted to duty as an internist at a Washington hospital.

Two of the Chinese bandits, who kidnapped a trainload of tinewares in the River Hattien, have been taken to the province and will be brought home as arrears.

Handed Norse arrived at Nome on the Victoria, en route to Wrangell in load, to take on Alvin Crawford and associates, who have been exploiting on the island for two years.

Problem Of World's Peace

Popular Interest May Be Stimulated By Propaganda

How can America best contribute to a permanent peace concert? This is a problem not for statesmen alone, but for all those who long for world security and for world progress untroubled by the clash of arms. The answer may be found in some unexpected quarter. There are many people who think seriously about international problems who have no contact with governmental agencies. They lack an adequate channel of expression. Mr. Budy's prize—distinctive for its high public price and value—may greatly stimulate popular interest in the problem it was created to solve. In developing a solution for the latter—New York Tribune.

Development Of Aviation

May Soon Fly 10 Miles Above Surface Of Earth

Airplanes may be climbing to 10 miles above the surface of the earth, according to Brig-Gen. Will Budy, of the United States Army, U.S. Air Service. The present record of altitude of 10,000 feet may be beaten any day. Budy's prize—distinctive for its high public price and value—may greatly stimulate popular interest in the problem it was created to solve. In developing a solution for the latter—New York Tribune.

The First Sleeping Car

Palace Car of 1859 Was a Rather Crude Affair

The first American sleeping car, which made its first trip in September, 1, 1859, has recently been featured in a play. The car had been built by means of weights and pulleys; it was untroubled, and the side between them was so narrow that the women, who in 1859 were hospitalised, found passing through it difficult. It was nevertheless termed the "Palace Car."

Centenarian's Entente

The suspicion of ruined French willers by English towns is quite prevalent, and I can think of no more certain means of cementing the entente. It is the story of a Frenchman, who appears irresistibly to the French, and is worth all the War Decretes in the devastated areas, ruined towns, and the case for the living is the surest way to perpetuate the memory of the dead.

—London Chronicle.

Shipping Men in Conference

Representatives From Various Parts Of Canada and U.S. Meet in Montreal

Problems connected with ocean lines from various parts of Canada and the United States, including New York, Boston and Baltimore, have been in conference at Montreal, under the auspices of the Canadian Shipping Conference and the Continental Conference. On Monday the party was entertained by the Canadian Shipping Lines on board the S.S. Montreal, where a special luncheon was served. The Canadian shipping line, Mr. J. W. Norcross, President, and Managing Director, and Mr. E. Frank, President of the Continental Conference, were carried out by Mr. E. A. W. Doherty, President, Traffic Manager.

Mr. Doherty presided and he was surrounded by Messrs. C. H. George, representing the Canadian Shipping Lines, and Mr. E. A. W. Doherty, President, Traffic Manager.

Flea From Animals May Give Disease

French Scientist Warns Of Danger Of Cancer From House Pets

The danger of contracting cancer from pet dogs and cats was the subject of a paper read before the French Academy of Sciences by Dr. M. Balth, who has made a considerable research into the parasite nature of fleas.

Dr. Balth's opinion, formed from experiments, is that it is at least possible that fleas from dogs and cats can transmit the cancer germs to man.

In one of his experiments Dr. Balth used several fleas from a dog, which had died of cancer, and placed them on two other old dogs. One of the dogs died a very short time, contracted the cancer.

Dr. Balth's experiment, however, searches have been principally in a small Normandy village where eight deaths out of a total of eleven in the last 18 years have been found to be due to cancer.

In all parts of Normandy, cancer is one of the most common of fatal diseases and if the parasite nature of the fleas is admitted, Dr. Balth believes that his conclusion is justified that the germ may be transmitted by fleas to other parasites.
